

# OWSD PhD Fellowship

## SAMPLE APPLICATION FORM - Full time scheme

---

Fields have been populated with instructions/hints and sample data as an example for reference purposes only. All applications must be submitted online by creating an account via the TWAS Online Forms platform.

### *Nina Vita*

The application must be submitted in English.

Please read the eligibility criteria at this [link](#)

Please note that the system will only accept your application if you answer all the questions and upload the documents when requested. All documents must be uploaded through this online application system. Do not email any document to OWSD unless requested. The OWSD Secretariat reserves the right to judge an application ineligible if the answers and/or documentation do not correspond to the specific question asked (e.g. blank documents, false certificates, outdated reference letters).

The OWSD PhD fellowship offers two options:

- **"Full-time"** means you intend to register for a PhD in the host country and will spend the entire period there, obtaining the degree from the host institution. The fellowship will provide support for no longer than 4 years.
- **"Sandwich"** means that you are already registered for a PhD in your home country and will only carry out part of the research in the host country; the degree will be awarded by your home institution. The fellowship is awarded for a maximum of 3 research visits at the host institute. The minimum duration of the first visit is 6 months and the total number of months spent at the host institute cannot exceed 20 months over a maximum 4 years.

**H-index**

The H-index is an index that attempts to measure both the productivity and impact of the published work of a scientist. This index is based on the set of the scientist's most cited papers and the number of citations that they have received in other publications. There are several online resources that can be used to directly calculate the H-index. The most established are "ISI Web of Knowledge" and "Scopus", both of which require a subscription (please check with your institute), but there are free options too, one of which is "Publish or Perish". Note that different databases may provide slightly different H-index values.
